

AFRICAN-AMERICANS NEEDED

African-Americans 21-65 years old are invited to participate in a study entitled the **GENE- FORECASTSM: GEN**omics, **E**nvironmental **F**act**OR**s and the Social **D**Eterminants of **C**ardiovascular Disease in **A**frican-Americans **S**Tudy. This study will determine how heart disease risk factors, such as social, environmental, and genetics impact African-Americans. The study will assess healthy volunteers and those at risk for heart attack or stroke.

Study involves:

- A visit to the NIH Clinical Center for heart health assessments
- There is no charge for study-related assessments

You will not be able to participate if:

- You are pregnant or breast feeding
- You were not born in the United States

Location: The NIH Clinical Center, America's research hospital, is located on the Metro red line (Medical Center stop) in Bethesda, Maryland.

Compensation will be provided.
