

ENCODE CONSORTIUM – USERS MEETING 2016

HOW TO: Set Up A DNAnexus Account

Overview: This worksheet will assist you in setting up your DNAnexus account. Please complete this registration prior to the Pipeline Workshop on Thursday afternoon.

- 1) Go to www.dnanexus.com and select the “Sign Up” button.
- 2) Choose to Create an Account when provided with log in page

The image shows the DNAnexus login page. At the top center is the DNAnexus logo, a stylized 'X' in blue and green. Below the logo are two input fields: "Username or Email" and "Password". To the right of the password field is a link that says "Forgot your password?". At the bottom of the form are two buttons: a blue "Log In" button and a link that says "or Create an Account".

- 3) Fill in account details and select “Register”

The image shows the "Create an Account" page on DNAnexus. The page has a light blue header with the text "Create an Account". Below the header are several input fields: "Full name", "Email", "Role" (a dropdown menu with "Select Role..." selected), "Username", "Password", and "Confirm Password". Below these fields is a note that says "All fields are required". There is a link that says "Use a promo code" with a small blue icon. At the bottom of the form are two buttons: a green "Register" button and a link that says "or Log In". Below the buttons is a note that says "By clicking Register you agree to our Terms and Privacy Policy" with a link to "Terms and Privacy Policy".

- 4) You will receive a verification email – open and activate account.

The image shows an email from DNAnexus titled "Account Activation". The email content is as follows:

WELCOME TO DNANEXUS

Hi Jean!

Thank you for joining the DNAnexus platform. Before you begin, you will need to [click here to activate your account](#).

A few tips to get the most out of the DNAnexus platform:

- Consult the [DNAnexus wiki](#) to get started quickly!
- Create a Project where you will store data, build workflows, run your analyses, and collaborate with research colleagues.
- Feel free to [send us your feedback](#) - we'd love to hear what you think.

- The DNAnexus team

- 5) Complete your profile after logging in using new username and password.

Complete your Profile

This information will help us build a better tool that addresses your scientific needs

Company

Company type

How did you hear about us?

Intended use

Instruments Illumina - HiSeq
Select at least one Illumina - MiSeq
 Ion Torrent - Ion PGM and Proton
 Pacific Biosciences
 Roche - 454 Genome Sequencer
 Other
 None

- 6) Begin your free trial of DNAnexus by starting a new project.

Welcome to Your Free Trial of DNAnexus

You can now use the full feature set of DNAnexus.

During the trial you can upload data, run analyses or pipelines, write and integrate your own genomics tools, and store data.

When your trial is over, some DNAnexus features will be disabled in your own projects, such as uploading data or running analyses. However, you will continue to be able to work in projects shared with you.

For information about pricing, please [submit a request](#). If you have questions, please [visit our FAQs](#) or contact us at support@dnanexus.com.
