

# ENCODE CONSORTIUM – USERS MEETING 2015

## HOW TO: Set Up A DNAnexus Account

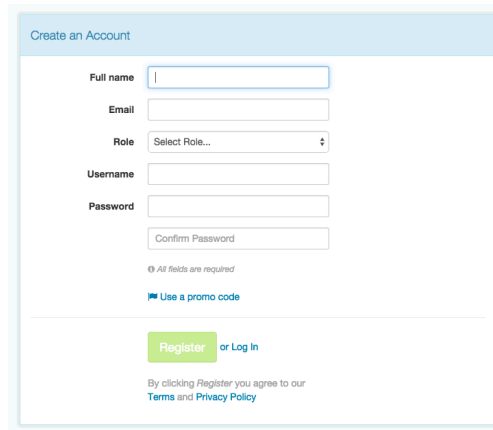

Overview: In addition to being available at Github, ENCODE pipelines can be run via a web browser. The ENCODE pipelines are distributed through DNAnexus. This worksheet will assist you in setting up your DNAnexus account. If you make an account prior to the Pipeline Workshop on Tuesday afternoon, you'll be able to follow along with the demo.

- 1) Go to [www.dnanexus.com](http://www.dnanexus.com) and select the "Sign Up" button.
- 2) Choose to Create an Account when provided with log in page

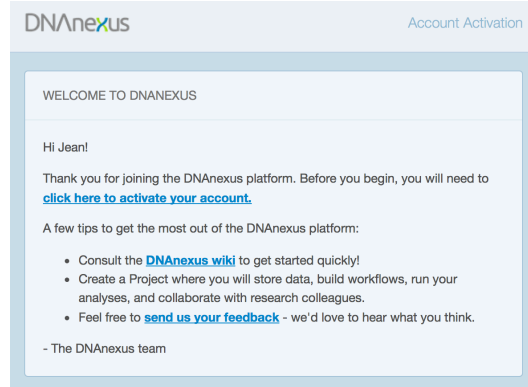

The screenshot shows the DNAnexus login page. At the top center is the DNAnexus logo, a stylized 'X' in blue and green. Below the logo are two input fields: "Username or Email" and "Password". A link "Forgot your password?" is positioned below the password field. At the bottom, there is a blue "Log In" button followed by the text "or Create an Account".

- 3) Fill in account details and select "Register"

The screenshot shows the "Create an Account" page. The title "Create an Account" is at the top left. The form contains several fields: "Full name", "Email", "Role" (a dropdown menu with "Select Role..." selected), "Username", "Password", and "Confirm Password". Below the "Confirm Password" field, there is a small text "All fields are required" and a checkbox labeled "Use a promo code". At the bottom, there is a green "Register" button followed by the text "or Log In". Below the buttons, there is a small text: "By clicking Register you agree to our Terms and Privacy Policy".

4) You will receive a verification email – open and activate account.

5) Complete your profile after logging in using new username and password.

Complete your Profile

This information will help us build a better tool that addresses your scientific needs

---

**Company**

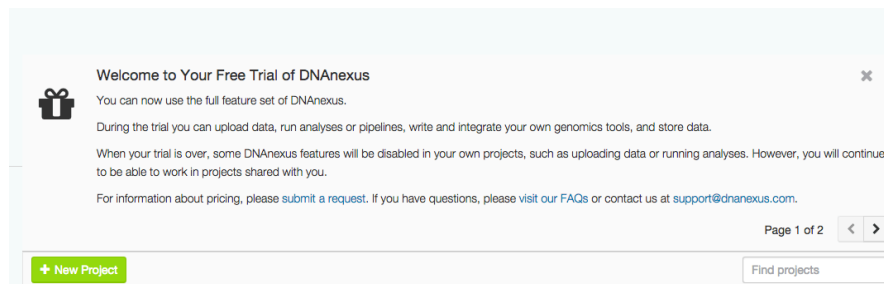

**Company type**

**How did you hear about us?**

**Intended use**

**Instruments**  Illumina - HiSeq  
Select at least one  Illumina - MiSeq  
 Ion Torrent - Ion PGM and Proton  
 Pacific Biosciences  
 Roche - 454 Genome Sequencer  
 Other  
 None

6) Begin your free trial of DNAnexus by starting a new project.

7) Each new account is loaded with \$100 to get you started. [www.dnanexus.com](http://www.dnanexus.com) has additional information about pricing for storage and data transfer. Select the "Upgrade Now" button for more details.

8) Additional information regarding starting a new project on the following worksheet and will be demonstrated in the workshop.

The screenshot shows a web interface for a project titled "Untitled Project - Jun 24th 2015". At the top right, it displays "0.00 GB" data usage, "Admin" access, and "Private" access policy. Below the header, there is an information icon and a tip: "1 of 4 tips · Add Data. Click the Add Data button to add or upload samples. For example, you can upload your own reads (FASTA/FASTQ) file or copy reads from the Exome Analysis Demo sample." A navigation bar includes "Manage", "Monitor", and "Visualize" tabs. Below this, a green bar contains "Add Data", "New Folder", "New Workflow", and "Start Analysis...". The main content area shows a folder named "Untitled Project - Jun 24th 2015" with a message: "This folder is empty. Perhaps you'd like to try [adding some data](#) to this folder?"
