Concept Clearance: Genomic Community Resources (U24)

Chris Wellington

Presentation to NACHGR

Sept 16, 2019

National Human Genome Research Institute

The **Forefront** of **Genomics**®

Genomic Community Resources

- Databases and informatics resources
  - WormBase, OMIM, ClinGen, Galaxy, Bioconductor
- Comprehensive collections of genomic features
  - GENCODE
- Standard data types on central sets of samples
  - Human Genome Structural Variation Consortium

NIH
NHGRI

Genomic Community Resources: Renewal of Program Announcement with Special Review Considerations (PAR)

- Reissue for 3 years; 3 receipt dates per year; U24
- Innovation defined broadly
  (e.g., accept new data types, accelerate annotation)
- Needs assessment and ongoing community outreach
- Resource maintenance
- Findable, Accessible, Interoperable, Reusable (FAIR)
- Service and training
