

National Human Genome Research Institute

Provider Genomics Education Resources

Genetics/Genomics Competency Center (G2C2)

<http://genomicseducation.net>

Online repository of genomics educational materials, peer-reviewed by and for genetic counselors, nurses, pharmacists, physician assistants, and physicians.

Global Genetics and Genomics Community (G3C)

<http://genomicscases.net>

Collection of unfolding video case studies for use with students and practicing healthcare providers learning basic genetic/genomic concepts.

Insurers Webinar Series

<https://www.genome.gov/insurersgenetictesting/>

Genetic testing strategies, interpretations, outcomes and patient care for use by insurers and their teams to make sound decisions regarding genomic healthcare of their insured

My Family Health Portrait

<https://phgkb.cdc.gov/FHH/html/index.html>

Web-based tool to create a family pedigree with health information for patients and their providers to identify patterns of inheritance and identify risk factors.

NHGRI Short Course in Genomics

<https://www.genome.gov/shortcourse/healthprofessionals/>

Nurse, Physician Assistant and Faculty Track: Course curricula from 2016 and 2017 for nurses, nurse practitioners, physician assistants, and the faculty who educate them.

Inter-Society Coordinating Committee for Practitioner Education in Genomics (ISCC)

<https://www.genome.gov/ISCC>

Healthcare practitioners, educators and society representatives furthering professional genomics education through in-person gatherings and regular calls.

Method for Introducing a New Competency: Genomics (MINC)

<http://genomicsintegration.net>

Toolkit for integrating genomics into clinical practice.

Omics Nursing Science & Education Network (ONSEN)

<https://omicsnursingnetwork.net>

Collaborative research and training website.
