NATIONAL INSTITUTE OF NURSING RESEARCH

2022-2026 STRATEGIC PLAN
“NINR Mission: Leading nursing science to solve pressing health challenges and inform practice and policy – optimizing health and advancing health equity into the future.”
All NINR-Supported Research:

- Tackles today’s pressing health challenges and stimulates discoveries to prepare for, prevent, or address tomorrow’s challenges
- Discovers solutions across clinical, community, and policy settings to optimize health for individuals, families, communities, and populations
- Advances equity by removing structural barriers from research, cultivating diversity in perspectives and ideas, and fostering inclusion and accessibility in designing, conducting, and participating in research
- Is innovative, develops or applies the most rigorous methods, and has the potential for the greatest impact on health
Research Lenses – Examining Health Challenges

- Health Equity
- Social Determinants of Health
- Population and Community Health
- Prevention and Health Promotion
- Systems and Models of Care
Health Equity

Reduce and eliminate the systemic and structural inequities that place some at an unfair, unjust, and avoidable disadvantage in attaining their full health potential.
Social Determinants of Health

Identify effective approaches to improve health and quality of life by addressing the conditions in which people are born, live, learn, work, play, and age.
Population and Community Health

Address critical health challenges at a macro level that persistently affect groups of people with shared characteristics.
Prevention and Health Promotion

Prevent disease and promote health through the continuum of prevention—from primordial to tertiary.
Systems and Models of Care

Address clinical, organizational, and policy challenges through new systems and models of care.

The National Institute of Nursing Research 2022–2026 Strategic Plan

The National Institute of Nursing Research 2022–2026 Strategic Plan outlines the Institute’s vision for supporting science that advances our mission: to lead nursing research to solve pressing health challenges and inform practice and policy—optimizing health and advancing health equity into the future.

Nurses are crucial to solving the Nation’s most pressing and persistent health challenges. As both the largest health profession and the largest of all professions in the Nation, nurses are the backbone of our health systems in the United States and have ranked as the most trusted profession for 20 years in a row. Nurses interact with individuals and families more closely than other health professionals in the many clinical, community, and policy settings in which they work; thus, they have a deep understanding of the
PARTNERSHIP AND COLLABORATION
NIH-Wide Social Determinants of Health Research Coordinating Committee

**Facilitate**
Facilitate sharing of information about SDOH research across NIH and with Federal partners

**Develop**
Develop SDOH expertise, capacity, and a learning system at NIH

**Build**
Build community and collaborations in SDOH research across NIH and with Federal partners

**Identify**
Identify gaps and promising SDOH research directions

**Accelerate SDOH research across NIH**
across diseases and conditions, populations, life course, SDOH domains

Executive Committee: NINR, NIMHD, FIC, NCATS, NCCIH, NCI, NHGRI, NIA, NIAMS, NICHD, NIDDK, NIEHS, NLM, OBSSR, ODP, ORWH
Community Partnerships to Advance Science for Society (ComPASS)

Lead ICOs: NINR, NIMH, NIMHD, ORWH, THRO
Transformative Health Disparities Research Program

- **RFA-RM-21-021**: Transformative Research to Address Health Disparities and Advance Health Equity (U01 Clinical Trial Allowed)

- **RFA-RM-21-022**: Transformative Research to Address Health Disparities and Advance Health Equity at Minority Serving Institutions (U01 Clinical Trial Allowed)

Co-Chairs: NINR, NIMH, NIMHD, ORWH, THRO
