Genomic Research Experiences for Data Scientists (R25)

Complement educational activities offered by Master's programs in data science fields

Data Science Programs

Master's degrees in quantitative or computational fields

Bring early-stage **data scientists** into genomics research

Genomics

Both experimental and computational research activities

R25 PAR Renewal Plans

- Reissue for 3 years; 1 receipt date per year
- \$250K DC/year for 5 years
- Recruitment plan to enhance diversity is required
- No significant changes
