

MINC at Avera BHC

Research opportunity to explore ways to strengthen staff knowledge and confidence in providing patient care that includes genomics.

Your contacts for more information:

Jan Questad
Brita Stange
Amber Top

Avera BHC chosen as one of 22 Magnet Hospitals to participate in this research opportunity.

Education opportunities provided by our genomics team regarding genomics offered in conjunction with annual Suicide Assessment training.

Question for Unit Council – how, when, where does your unit see genomic and genetic issues? Coming to a unit council meeting soon

Visit www.g2c2.org for fantastic links to more genetic education.

★★★★★★★★★★
Might you see genetics at the Skills Fair???

★★★★★★★★★★

Information for you at Unit Meetings.

Excited to learn more? We are!!
